EDUCATION	**University of California, Berkeley**	
	PhD Electrical Engineering and Computer Sciences	2009
	Advisor: Prof. Michael Gastpar	
	Dissertation Title: Exploiting Interference through Algebraic Structure	
	MS Electrical Engineering and Computer Sciences	2005
	Advisor: Prof. Michael Gastpar	
	Rice University	
	BS Electrical and Computer Engineering	2003

EMPLOYMENT	**Boston University**	
	Associate Chair of Undergraduate Programs	2023 - Present
	Department of Electrical and Computer Engineering	
	Associate Professor	2018 - Present
	Department of Electrical and Computer Engineering	
	Distinguished Faculty Fellow	2019 - 2024
	College of Engineering	
	Affiliated Faculty Member	2011 - Present
	Center for Information and Systems Engineering	
	Division of Systems Engineering	
	Assistant Professor	2011 - 2018
	Department of Electrical and Computer Engineering	
	University of Wisconsin, Madison	
	Postdoctoral Research Associate	2009 – 2010
	Department of Electrical and Computer Engineering	
	Hosts: Prof. Robert D. Nowak and Prof. Stark C. Draper	

SELECTED AWARDS	*Distinguished Faculty Fellow*	2019 - 2024
	College of Engineering, Boston University	
	ECE Outstanding Faculty Teaching Award	2018
	Department of Electrical and Computer Engineering, Boston University	
	ECE Faculty Service Award	2017
	Department of Electrical and Computer Engineering, Boston University	
	Dean's Catalyst Award	2017
	College of Engineering, Boston University	
	Joint Paper Award	2013
	IEEE Communications Society and Information Theory Society	
	NSF CAREER Award	2013
	National Science Foundation	

Dean's Catalyst Award	2011
College of Engineering, Boston University	
Eli Jury Award for Outstanding Achievement in Systems,	2009
Communications, Control, or Signal Processing	
EECS Department, University of California, Berkeley	
Outstanding Graduate Student Instructor	2004
EECS Department, University of California, Berkeley	
NSF Graduate Research Fellowship	2004
National Science Foundation	
Outstanding Senior in Engineering	2003
Rice Engineering Alumni Association	
National Merit Scholar	1999
National Merit Scholarship Corporation	

GRANT FUNDING

CURRENT

CIF: Medium: Discovering Changes in Networks: Fundamental Limits, Efficient Algorithms, and Large-Scale Neuroscience,
National Science Foundation (CCF-1955981), 7/1/20 - 6/30/24,
Lead PI with Co-PIs Prof. Venkatesh Saligrama (BU) and Prof. Xue Han (BU),
Total: $1,199,997 + REU Supplement: $32,000.

PREVIOUS

Convergence: RAISE Integrating machine learning and biological neural networks ,
National Science Foundation (CBET-1848029), 10/1/18 - 9/30/22,
Co-PI with Lead PI Prof. Xue Han (BU) and Co-PI Ed Boyden (MIT),
Total: $999,000.

CIF: Small: Algebraic Network Information Theory,
National Science Foundation (CCF-1618800), 6/15/16 - 5/31/21,
Sole PI,
Total: $499,995 + REU Supplement: $27,500.

Understanding Large-Scale Neural Data: Theory, Algorithms, and Experimental Design Insights,
Dean's Catalyst Award, Boston University College of Engineering, 6/1/17 - 5/31/19,
Lead PI with Co-PIs Prof. Xue Han (BU) and Prof. Venkatesh Saligrama,
Total: $78,000, BU Share: $78,000.

CAREER: Harnessing Interference Structure in Networks,
National Science Foundation (CCF-1253918), 2/1/13 - 1/31/18,
Sole PI,
Total: $496,102, BU Share: $496,102.

CIF: Small: Collaborative Research: Exploring Synergies of Multi-State Networks,
National Science Foundation (CCF-1320773), 9/1/13 - 8/31/17,
Lead PI with Co-PI Prof. Syed Jafar (UCI),
Total: $499,747, BU Share: $249,954.

CIF: Medium: Collaborative Research: Interference-Aware Cooperation via Structured Codes: Creating an Empirical Cycle,
National Science Foundation (CCF-1302600), 8/1/13 - 7/31/17,
Lead PI with Co-PIs Prof. Behnaam Aazhang (Rice) and Prof. Krishna Narayanan (Texas A&M),

Total: $1,097,358, BU Share: $387,473, REU Supplement: $10,800.

Application-Specific Noisy Processors: Weaving Nearly Reliable Circuits from an Unreliable Fabric,
Dean's Catalyst Award, Boston University College of Engineering, 5/1/11 - 4/30/12,
Co-PI with Lead PI Prof. Ajay Joshi (BU),
Total: $38,000, BU Share: $38,000.

Subaward from *Computation Codes - A New Tool for Multi-user Communication,*
National Science Foundation (CCF-0830428), 9/1/11 - 11/30/12,
Lead PI Prof. Michael Gastpar (Berkeley/EPFL),
Total Subaward to BU: $102,863.

RESEARCH GROUP

CURRENT   **PhD Students**

Zeynep Kahraman, BS Bogazici University,
ECE Department, Fall 2018 - present.

Nicholas Sacco, BS/MS University of Massachusetts, Lowell
ECE Department, Fall 2020 - present.

ALUMNI

Past Postdoctoral Scholars

Dr. Or Ordentlich, BS/MS/PhD Tel Aviv University,
Co-hosted with Prof. Yury Polyanskiy (MIT), 2015 - 2017.
Current Position: Associate Professor, Hebrew University of Jerusalem.
Website: `https://www.orordentlich.net`

Dr. Viveck R. Cadambe, BS/MS IIT Madras, PhD University of California, Irvine,
Co-hosted with Prof. Muriel Médard (MIT), 2011 - 2014,
Current Position: Associate Professor at Penn State University.
Website: `http://www.ee.psu.edu/viveck/`

Dr. Chen Feng, BS Shanghai Jiao Tong, MS/PhD University of Toronto,
NSERC Postdoctoral Fellow co-hosted with Prof. Michael Gastpar (EPFL), 2014 - 2015,
BU Visit: Nov. 2014 - Feb. 2015, EPFL Visit: Mar. 2015 - Jun. 2015,
Current Position: Associate Professor at the University of British Columbia, Kelowna.
Website: `https://people.ok.ubc.ca/cfeng01/`

Graduated PhD Students

Dr. Aditya Gangrade, BTech IIT Bombay, PhD Boston University
SE Division, 2015 - 2021. Co-advised with Prof. Venkatesh Saligrama,
Dissertation Title: Two Studies in Resource-Efficient Inference: Structural Testing of Networks, and Selective Classification,
Current Position: Postdoctoral Fellow at Carnegie Mellon University, supervised by Prof. Aditya Ramdas and Prof. Alessandro Rinaldo.
Website: `https://adityagangrade.wordpress.com`

Dr. Kyle Hansen, BS University of Utah, MS/PhD Boston University
BME Department, 2014 - 2019, Co-Advisor with Primary Advisor: Prof. Xue Han,
Dissertation Title: Neuronal Population and Network Analysis Tools for Large Scale Calcium Imaging Datasets,
Current Position: Staff Data Scientist at Recursion Pharmaceuticals.

Dr. Islam El Bakoury, BS/MS Alexandria University, PhD Boston University

ECE Department, 2013 - 2019,
Dissertation Title: Integer-Forcing for Cloud-Radio Access Networks: Compression, Equalization, and Uplink-Downlink Duality,
Current Position: Qualcomm.

Dr. Michael Farag, BS Alexandria University, MS/PhD Boston University,
ECE Department, 2011 - 2016,
Dissertation Title: Interference Alignment: Capacity Bounds and Practical Algorithms for Time-Varying Channels,
Current Position: Quantlab.

Dr. Wenbo He, BS New York University, MS/PhD Boston University,
ECE Department, 2011 - 2016,
Dissertation Title: Integer-Forcing in Multiterminal Coding: Uplink-Downlink Duality and Source-Channel Duality,
Current Position: Principal Software Engineer at Mathworks.

Graduated MS Students

Steve Wang, BS University of California, Berkeley, MS Boston University,
ECE Department, 2015 - 2016,
Current Position: Software Engineer at Google.

Kate Thurmer, BU LEAP student, MS Boston University,
ECE Department, 2013 - 2014,
Current Position: PhD student at University of Toronto.

Past Undergraduate Research Supervision

Pratima Vaidyanathan, BS Candidate Boston University,
ECE Undergraduate, Summer 2020 research supported by NSF REU supplement.

Elisa Cordeiro Lopes, BS Candidate Boston University,
BME Undergraduate, Summer 2020 research supported by NSF REU supplement.

Rockwell Tang, BS Candidate Boston University,
BME Undergraduate, Summer 2020 research supported by NSF REU supplement.

Artemis Margaronis, BS Candidate Boston University,
BME Undergraduate, Summer 2020 research supported by NSF REU supplement.

Rosangel Ramos Espinoza, BS Candidate Boston University,
BME Undergraduate, Summer 2020 research supported by NSF REU supplement.

Aviva Englander, BS Boston University,
ECE Undergraduate, Summer 2017 research supported by NSF REU supplement.

Biyao Liang, BS Boston University,
ECE Undergraduate, Summer 2017 research supported by NSF REU supplement.

Sparsh Kumar, BS Boston University,
ECE Undergraduate, Summer 2015 research funded by NSF REU supplement.

Jooyoun Hong, BS Boston University,
ECE Undergraduate, Summer 2015 research funded by NSF REU supplement.

Erik Lindgren, BS Boston University,
ECE Undergraduate, Senior Honors Thesis, NSF Graduate Fellowship, 2013 - 2014,
Current Position: PhD Student supervised by Prof. Alex Dimakis (UT-Austin).

Past Visitors

Corina Ionita, PhD Candidate Rice University,
Visited while PhD student of Prof. Behnaam Aazhang (Rice University), August 2014 - December 2017.

Prof. Sidharth Jaggi, Associate Professor at the Chinese University of Hong Kong,
CISE Resident Scholar, April - August 2016.

Dr. Vasileios Ntranos,
Visited while PhD student of Prof. Giuseppe Caire (USC), March - November 2012.

Dr. Matthew Nokleby,
Visited while PhD student of Prof. Behnaam Aazhang (Rice University), March 2012.

INVITED TALKS

HALF-DAY TUTORIALS

Compute-and-Forward: An Explicit Link between Finite Field and Gaussian Interference Networks, European School of Information Theory, Tallinn, Estonia, April 2014.

Algebraic Structure in Network Information Theory, IEEE International Symposium on Information Theory (ISIT 2011), St. Petersburg, Russia, August 2011.

Interference Alignment (for Interference Channels), Wireless Information Theory Summer School, Oulu, Finland, August 2011.

WORKSHOPS

Integer-Forcing for Cloud Radios
- 15th Annual Information Theory and Applications Workshop, San Diego, CA, February 2020.

Testing Changes in Communities for the Stochastic Block Model
- 14th Annual Information Theory and Applications Workshop, San Diego, CA, February 2019.

Towards an Algebraic Network Information Theory: II. Simultaneous Decoding
- Invited Session on Structured Codes in Network Information Theory, 52nd Annual Conference on Information Sciences and Systems, Princeton, NJ, March 2018.

Information-Distilling Quantizers
- 56th Annual Allerton Conference on Communications, Control, and Computing, Monticello, IL, October 2018.
- 12th Annual Information Theory and Applications Workshop, San Diego, CA, February 2017.

Towards an Algebraic Network Information Theory
- York Workshop on Interactions between Number Theory and Wireless Communications, July 2016.
- DIMACS Workshop on Network Coding: the Next 15 Years, Center for Discrete Mathematics and Theoretical Computer Science, December 2015.

Expanding the Compute-and-Forward Framework
- University of California, San Diego, 10th Annual Information Theory and Applications Workshop, February 2015.

Channel Coding for Interference Alignment: State-of-the-Art and Challenges
- ACM International Symposium on Mobile Ad Hoc Networking and Computing (MobiHoc 2014), Workshop on Interference Alignment, August 2014.

Integer-Forcing: An Algebraic Approach to Interference Management
- IEEE Communications Theory Workshop, Interference Management Session, May 2014.

"Single-Letterization" of Gaussian Networks into Diophantine Approximation Problems
- York Workshop on Interactions between Number Theory and Wireless Communications, May 2014.

Towards an Algebraic Network Information Theory
- Charles River Information Theory Day, NSF Science of Information Center, April 2014.

Compute-and-Forward: Back to the DMC

- University of California, San Diego, 9th Annual Information Theory and Applications Workshop, February 2014.

Lattice Interference Alignment: State-of-the-Art and Challenges
- Asilomar Conference on Conference on Signals, Systems, and Computers, November 2013.

Compute-and-Forward: An Explicit Link between Finite Field and Gaussian Interference Networks
- IEEE International Symposium on Network Coding (Netcod), June 2013.

Integer-Forcing Interference Alignment
- University of California, San Diego, 8th Annual Information Theory and Applications Workshop, February 2013.

Integer-Forcing
- University of California, San Diego, 7th Annual Information Theory and Applications Workshop, February 2012.
- Banff International Research Station Workshop on Interactive Information Theory, January 2012.

Lattice Codes in AWGN Networks: What's Missing?
- Banff International Research Station Workshop on Algebraic Structure in Network Information Theory, August 2011.

The AWGN Red Alert Problem
- University of California, San Diego, 6th Annual Information Theory and Applications Workshop, February 2011.

Fading as Implicit Computation
- University of California, San Diego, 5th Annual Information Theory and Applications Workshop, February 2010.

Exploiting Interference through Structured Codes
- University of California, San Diego, 4th Annual Information Theory and Applications Workshop, Graduation Day, February 2009.

SEMINARS   *Detecting Structural Changes in Networks*
- Arizona State University, LIONS (Learning, Information, Optimization, Networks, Statistics) Seminar, October 2022.

Algebraic Network Information Theory: Techniques and Theorems for Harnessing Interference in Communication Networks
- Boston University, Electrical and Computer Engineering Seminar, April 2017.

Information-Distilling Quantizers
- Massachusetts Information of Technology, Signals, Information, and Algorithms Laboratory Group Meeting, March 2017.

Towards an Algebraic Network Information Theory
- Shannon Channel Online Seminar, June 2017, `https://youtu.be/_y1F8bMFDLY`
- Carnegie Mellon University, Energy and Information Seminar, March 2017.
- Tufts University, Electrical and Computer Engineering Seminar, October 2016.
- Worcester Polytechnic Institute, Electrical and Computer Engineering Seminar, April 2016.

Compute-and-Forward: An Explicit Link between Finite Field and Gaussian Interference Networks
- University of California - San Diego (UCSD), Information Theory and Applications Seminar, May 2014.

- University of Illinois at Urbana-Champaign (UIUC), Communications/ICWS Seminar, March 2014.
- Ecole Polytechnique Fédérale de Lausanne (EPFL), Information Processing Group Seminar, July 2013.

Harnessing Interference via Algebraic Structure
- Google, Wireless Tech Talk, June 2013.
- Massachusetts Institute of Technology, Laboratory for Information and Decision Systems Seminar, May 2013.

Harnessing Interference
- Qualcomm Seminar (Boxborough, MA), November 2012.
- Hebrew University of Jerusalem, Computer Science Colloquium, November 2012.
- Technion, Communication and Information Theory Seminar, November 2012.
- Army Research Laboratory Seminar, October 2012.
- University of Texas, Austin, Wireless Networking and Communications Group Seminar, April 2012.
- University of Massachusetts, Amherst, Electrical and Computer Engineering Seminar, April 2012.
- University of Toronto, Electrical and Computer Engineering Seminar, April 2012.
- University of Waterloo, Electrical and Computer Engineering Seminar, March 2012.
- Worcester Polytechnic Institute, Electrical and Computer Engineering Seminar, March 2013.

Exploiting Interference through Algebraic Structure
- Boston University, Center for Information and Systems Engineering Seminar, November 2011.

Harnessing Interference for Reliable Computation and Communication
- Bell Labs, March 2011.
- Massachusetts Institute of Technology, Signals, Information, and Algorithms Group Meeting, March 2011.
- University of Illinois, Chicago, Electrical and Computer Engineering Seminar, September 2010.
- Boston University, Electrical and Computer Engineering Seminar, March 2010.

Exploiting Interference through Structured Codes
- University of Illinois, Urbana-Champaign, Department of Electrical and Computer Engineering, Communications Seminar, October 2009.
- University of Wisconsin, Madison, Department of Electrical and Computer Engineering, Systems Seminar, April 2009.
- Harvard University, Electrical Engineering Seminar, April 2009.
- University of California, San Diego, 4th Annual Information Theory and Applications Workshop, Graduation Day, February 2009.

Structural Gain in Network Communication Theorems
- Texas A&M University, Department of Electrical and Computer Engineering, Networking Seminar, November 2007.
- Rice University, Department of Electrical and Computer Engineering Colloquium, March 2007.

Teaching   **Boston University**

ENG EK381: Probability, Statistics, and Data Science for Engineers
- Fall 2022, Spring 2022, Spring 2021, Fall 2020

ENG EC381: Probability Theory in Electrical and Computer Engineering
- Spring 2018, Spring 2017, Fall 2015, Spring 2015

ENG EC508: Wireless Communication
- Spring 2019, Fall 2016, Fall 2015, Fall 2014, Fall 2013

ENG EC517: Introduction to Information Theory
- Spring 2020, Spring 2014, Spring 2013, Spring 2012, Spring 2011

ENG EC515: Digital Communication
- Fall 2011

ENG EC700: Large-Scale Neural Data Analysis
- Fall 2017

ENG EC700: High-Dimensional Probability
- Fall 2021

Service

Conference and Workshop Organization

North American Information Theory Summer School
General Chair for 2019 School hosted at Boston University.
Website: `http://iss.bu.edu/bobak/nasit`

Workshop on Interactions between Number Theory and Wireless Communication
One-week workshop hosted by the Department of Mathematics at York University, July 2016.
Co-organized with Victor Beresnevich, Alister Burr, and Sanju Velani, all at York University.

Nexus of Information and Computation Theories
Three-month program hosted by the Institut Henri Poincaré, Spring 2016.
Focused on the interface of information theory and theoretical computer science. Nearly 200 talk and tutorial videos available online. Co-organized with Mark Braverman (Princeton), Anup Rao (UW), Aslan Tchamkerten (Télécom Paristech).
Website: `http://csnexus.info`

Workshop on Interference in Networks
One-day workshop (before ISIT 2012) at Boston University on information-theoretic approaches to interference in wireless networks. Co-organized with Salman Avestimehr (USC).

Invited Session Organization

New Applications of Lattice Codes, IEEE Information Theory Workshop (ITW 2015 - Jerusalem), April 2015, co-organized with Michael Gastpar (EPFL).

Algebraic Structure in Network Information Theory, IEEE Information Theory Workshop (ITW 2014 - Hobart), November 2014, co-organized with Brian Kurkoski (JAIST).

Interference Alignment, IEEE International Conference on Wireless Communications Systems (ISWCS 2011), November 2011, co-organized with Syed Jafar (UC - Irvine).

Information Theory and Circuits, 49th Annual Allerton Conference on Communication, Control, and Computing, September 2011, co-organized with Lara Dolecek (UCLA).

Information Theory Society
- Outreach Committee (2012 - 2017)
- North American School of Information Theory: Publicity (2011), Web (2012), General Chair (2019).
- Student Committee: Student Co-Chair (2009 - 2010)

IEEE Communications Society

- Poster Co-Chair for IEEE Communication Theory Workshop (2015)

Technical Program Committees
- IEEE International Symposium on Information Theory (ISIT 2013 - 2018, 2020 - 2023)
- IEEE Information Theory Workshop (ITW 2014)
- IEEE Global Communications Conference, Communication Theory Symposium (GLOBECOM 2014, 2015)
- IEEE International Conference on Communications, Wireless Communications Symposium (ICC 2011), Communications Theory Symposium (ICC 2013, 2014)
- IEEE International Symposium on Wireless Communications Systems (ISWCS 2011, 2012)
- IEEE International Symposium on Network Coding (Netcod 2013)
- International Symposium on Information Theory and its Applications (ISITA 2012)
- Canadian Workshop on Information Theory (CWIT 2017, 2019)

Reviewer
- IEEE Transactions on Information Theory, IEEE Transactions on Communications, IEEE Transactions on Wireless Communications, IEEE Transactions on Signal Processing, IEEE Communications Letters (Exemplary Reviewer in 2011), IEEE Selected Topics on Signal Processing and various conferences.

Boston University
- Associate Chair of Undergraduate Programs, ECE Department, 2023 - present
- Publicity Committee, ECE Department, 2017 - 2019
- Responsible Conduct of Research Panels, 2016 - 2020
- EK100 Major Presentations, 2014 - 2020
- ECE Open House, ENG Challenge Leader, 2013 - 2019
- Search Committee, ECE Department, 2014, 2015, 2017, 2019, 2020, 2022
- Undergraduate Committee, ECE Department, 2021 - present
- Masters Committee, ECE Department, 2017 - 2018
- Doctoral Committee, ECE Department, 2016 - 2017, 2020
- Graduate Committee, ECE Department, 2011 - 2016
- Dean's Task Force on the ENG Undergraduate Curriculum, 2016 - 2017
- Convergence Task Force on Undergraduate Education, 2020 - 2021
- Ad Hoc Committee on Python for ENG Freshman Year, 2022
- Organizing Committee, CISE Seminar, 2014 - 2018

MEMBERSHIPS   IEEE, IEEE Information Theory Society, IEEE Communications Society, Phi Beta Kappa, Tau Beta Pi, Eta Kappa Nu.
